

Department:--Mechanical
Academic Year—2012-13
Final Year Project List

SN	Name of Project
1	reduction in parameter variation of long length welding machine
2	flow control device using rubber bladder
3	Drag Reduction of formula car through CFD
4	Power generation by domestic wind turbine
5	Design, analysis 4 testing of 3 mass flywheel for automotive
6	Investigation in potential of heat pipe in cooling of car seat
7	Telescopic Type Pipe & Wall Painting Pneumatic Robot
8	Milling Machine attachment for Lathe Machine
9	Mechanical linkage electro pneumatic fly shear.
10	Positive engagement variable speed drive
