

Research Publication

Sr. No.	First Author	Second Author	National /International	Title of Paper	Name of Journal / Conf	Volume	Issue	ISSN	Page NO	Name of Organizing Agency / Conf	Date & Month
1	Priyali Phukale	Poonam Gupta	International	Analysis of End-to-End Delay in Vehicular Networks	International Journal of Science and Research (IJSR)	5	9	2319-7064	1122-1125	IJSR	16-Sep
2	Neha Rathod	Poonam Gupta	International	Comparative analysis of routing protocols in hybrid	International journal of computer trends and technology	41	2	2231-2803	92-96	IJCTT	16-Nov
3	Prerana Dhar	Poonam Gupta	International	Intelligent parking cloud service based on IoT	International Conference on automatic control and dynamic optimization					IEEE	16-Sep
4	Preeti Patil	Mansi Bhonsle	International	Web log analysis using request dependency graph & primary request	International Journal of Science, Engineering and technology, volume:-	4	3	2348-4098	522-527	IJSET	16-Jul
5	Tanuja Sali	Mansi Bhonsle	International	Secure Fine grain updates in cloud using public auditing	International Journal of Engineering and Research-Volume-5, Issue 7	5	7	2319-6890	622-626	IJER	16-Jul
6	Sonali Chemathe	Mansi Bhonsle	International	REGENERATION OF the cloud data with preserve privacy and public auditing to reduce	International Journal of Engineering and computing	6	5	2321-3361	5895-5898	IJESC	16-May

7	Girish Khorate	Urmila Biradar	International	Energy Efficient and Guaranteed packet delivery in Mobile Adhoc Network	International Journal on recent and innovation trends in computing and communication,	4	7	2321-8169	91-95	IJRITCC	16-Jul
8	Priti Rathi	Ganesh Bandal	International	Efficient binary cutting packet classification	International Journal on recent and innovation trends in computing and communication,	4	7	2321-8169	169-173	IJIRTCC	16-Jul
9	Priti Rathi	Ganesh Bandal	International	Survey paper of novel approach towards multidimensional	International journal of science and research	5	1	2319-7064		IJSR	16-Jan
10	Amir Ali	Nivedita Kadam	International	A novel technique for Cloud computing data security and public auditing	International Journal on recent and innovation trends in computing and communication,volum	4	7	2321-8169	113-117	IJRITCC	16-Jul
11	Vikram Patil	Sunita Nandgave	International	A neighbor coverage using Probabilistic Rebroadcast in Mobile Ad-hoc network	international Journal of Scientific Research in Science, Engineering and Technology ,volume:-1,Issue:-6	1	6	2395-1990	247-250	IJSRSET	16-Jul
12	Shreyas Jathe	Vidya Dhamdhere	International	Hybrid Cryptography for malicioos behaviour detection and prevention	International Conference on Computational ,Intelligence and				1108-1114	IEEE	16-May
13	madhavi Suryaw	Sarita Patil	International	Avoiding data leakage and providing privacy to	International Conference on communication ,					IEEE	16-Aug

14	Bhan Sengar	B.padmavathi	International	A survey on botnet : behaviour,Life cycle,detection and prevention	IJCTA			0974-5572		IJCTA	17-Jan
15	Sukahda Vader	Mughda Kirkire	International	Detecting overlapping nodes in MLM network chain to cluster several	International journal of computing trends and technology					IJCTT	16-Dec
16	Abhijeet jamle	Geeta Atkar	International	An Analytical Survey on Policy making for Software Defined	International journal of computing trends and technology					IJCTT	16-Dec
17	Diptee Kumbhar	Seema Udgirkar	International	Survey on mobile cloud based Food calorie measurement	International journal of innovative research in computer and communication engineering	4	11	2320-9801	20203-20208	IJIRCCE	16-Nov
18	Asha Chudhary	Pornima More	International	A survey on black hole attacks	International journal of computer trends and technology	41	2	2331-2803		IJCTT	16-Nov
19	Snehal Chopade	Pornima More	International	A survey on software data reduction technique for bug triage	International journal of application or innovation in engineering and					IJIEM	16-Nov
20	Asha Chudhary	Pornima More	National	A framework for black and gray hole detection in DTN	Cpgcon						17-Mar
