DESCRIPTION ABOUT THE EVENT

Department of Mechanical Engineering GHRCEM, Pune has organized **2 Days Workshop on “Research Methodology, Product Design and Development”** on dated 9th Jan and 11th Feb 2019 for the TY A students of Department of Mechanical Engineering GHRCEM, Pune. Dr. A. R. Yadao briefs about the importance Research methodology. Total 70 students were present in this workshop. First day Dr. Adik Yadao, Mr. D.S. Patil and Mr. S.H. Gupta gives detail about data collection, Research Process, research paper & proposal writing along with awareness of plagiarism. At Second day Dr. Anil sahu, and Mr. Dharekar Designtech pune address about the product design and product design life cycle in industries

Research methodology is a systematic way to solve a problem. It is a science of studying how research is to be carried out. Essentially, the procedures by which researchers go about their work of describing, explaining and predicting. It helps in developing reading for critical evaluation not just for the purpose of knowledge. Also It helps develop reasoning skills as students read any article or book to collect sources for research paper. It helps the students think differently and think out of the box when read something and develop the skill of making conclusion from what students read and ask question from yourself whether they agree with it or not.
