Department of Information Technology, G. H. Raisoni College of Engineering and Management, Wagholi, Pune organized Industrial Visit at "National PARAM Supercomputing Facility" at CDAC, Pune for faculty and students (UG and PG) on 28/02/2019. The students visited National PARAM Supercomputing Facility which offers state-of-the-art High Performance Computing system and resources to the scientific user community of various academic and research institutes, help them with the know-how and usage of such systems and proliferate HPC awareness in the country. The initiatives at National PARAM Supercomputing Facility has contributed to the proliferation of parallel and distribute processing technologies in India which in turn has helped several researchers from various scientific and engineering disciplines to carry out their research more effectively. The Industrial visit was organized by Ms. Poonam Dhamal under the guidance of Prof. Simran Khiani, HOD, Information Technology Department.
